## **GRANDPARENTS FORUM**

Grandparents are the integral part in any child's life. They play an important role in the upbringing of our children and this is very well recognized in our school too. The school gives lot of importance to grandparents and always loves to have them here. Grandparents Forum is an important platform where the grandparents are invited to share their experiences and views with our children.

Mrs. And Mr. S.K.Khanna, grandparents of Dhvani Khanna of P4 C came to interact with the students of P4 on 13<sup>th</sup> October, 2016. Grandfather emphasized a lot on good habits. He advised the children to choose healthy

food over junk food. He told the children to drink milk and eat all vegetables. He stressed a lot on the wastage of food by the children. He also told a short story of "Narad Muni" and explained how the anger can harm anyone. He advised the children to maintain their calm and not get angry. Hopefully this kind of interaction with the children would actually help them and remind them of the values we all intend to impart.

### Feedback of grandparents

A day at Gyan Bharati School was a wonderful experience. It was the first time I went for Grand Parents Day, though Dhvani's Grand mother had been once around 8yrs back. We were thrilled to hear the response of students of this age. They were very interactive, participative and very observant. They were hearing to us with lot of patience and were attending the session in a very well disciplined manner. Hoping the topic discussed "no wastage of food & other resources" was useful for them -

  
(S. N. Khanna)
